Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 05/29/2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

The text of those sections of Title 35 USC not included in this Action can be found in the previous Office Action sent on 12/1/2006.

Applicant's arguments with respect to claims 44-47 have been considered but are moot in view of the new ground(s) of rejection.

Status of Claim Rejections – 35 USC § 102

In the previous Office action, dated 1 December 2006, claims 44-47 were rejected under 35 U.S.C. 102(b) as being anticipated by Siegel et al. (Journal of Chemical Ecology, Vol. 16 No. 12, 1990), taken with the evidence of Salminen et al. and Rottinghaus et al.

The rejections of claims 44-47 under 35 U.S.C. 102(b), based on Siegel et al., are hereby withdrawn in view of the comments submitted by Applicants at the bottom of Page 4 of the remarks submitted with the amendment.

Specifically, applicants correct the examiner's assumption that Siegel et al. teaches parts per billion (ppb) whereas, in fact, Siegel et al. teaches parts per million (ppm.) Accordingly, the claims are not anticipated.

Status of Claim Rejections - 35 USC § 101

In the previous Office action, dated 1 December 2006, claims 44-47 were rejected under 35 U.S.C. § 101 because the claimed invention was directed to non-statutory subject matter.

The rejections of claims 44-47, under 35 U.S.C. § 101, are hereby withdrawn in view of the amendment to claim 44 requiring the endophyte to be isolated.

Art Unit: 1661

Status of Claim Rejections Enablement

In the previous Office action, dated 1 December 2006, claims 44-47 were rejected under Enablement.

The rejections of claims 44-47, under Enablement, are hereby withdrawn in view of the fact the applicant is willing to make a deposit of the claimed endophyte.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Written Description

Claims 44-47 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed does not provide support for the invention as now claimed. This is a **New Matter** rejection for the following reasons: the specification does not appear to provide an adequate written description of the isolation of the claimed endophyte. The instant claims now recite limitations (isolated), which were not clearly disclosed in the specification and claims as filed, and now change the scope of the instant disclosure as filed. Such limitations recited in the present claims, which did not appear in the specification or original claims, as filed, introduce new concepts and violate the description requirement of the first paragraph of 35 U.S.C. 112. If applicant amends to remove the word "isolated" from the claims it could cause the claims to be rejected under 35 U.S.C. § 101.

Summary

No claim is allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
